

Civil Engineering Project

DEPARTMENT OF LABOR JOB CORPS DORMINTORIES

Municipal Project

PROJECT DESCRIPTION:

- ◆ The project consisted of (2) 26,000 square foot buildings used as dormitories for job corp students and placed within the existing campus, it included 10' wide walkway/access paths, outdoor visiting areas, storm drain detention in landscaped depressions. Beginning from concept master-planning, (5) dormitories, a transportation building and a new administration building were laid out to provide a student campus that could be enjoyed and be functional. Two dormitories and the transportation building were then programmed for construction documents.
- ◆ The site was laid out and designed to keep the certain large existing trees. Utility evaluations were completed and the necessary design criteria incorporated. Construction monitoring was done to monitor compliance to the plans.
