

MOUNTAIN STATE LOG HOMES

Residential Project

PROJECT DESCRIPTION:

- ◆ McNeil Engineering Structural, L.C. designed multiple custom and pre-designed log homes throughout the intermountain west. McNeil Engineering provided the structure design efforts making it possible for Mountain State Log Homes to be large and spacious.
- ◆ McNeil's efforts allowed these quality log homes to accentuate their architectural beauty and permit the builder to pay attention to other details of excellent craftsmanship.
- ◆ They come in traditional log home and a variety of other styles (chinked and dovetail) as well as timber-frame construction.
