

Laser Scanning & Survey Project

ALTA/NSPS LAND TITLE SURVEYS

For your real estate needs, McNeil Engineering is one of the leading providers of ALTA/NSPS Land Title Surveys in Utah. We have been able to assist numerous title companies, attorneys, and business owners in a timely fashion.

PROJECT DESCRIPTION: Classic Trends

- ◆ An ALTA/ACSM Land Title Survey using laser scanning technology, giving us the ability to bring a measurable site to an out of state client.
- ◆ The deliverables to the client for this survey gave them the ability to see the easements and cell tower as they relate to the boundary line.
- ◆ McNeil Engineering is able to provide more accurate data in a shorter amount of time as compared to using traditional survey methods, thus providing a lower cost to the client.
