

Laser Scanning & Survey Project

LOUIS A. ROSER COOLING TOWER Industrial Project

PROJECT DESCRIPTION:

- ◆ Louis A. Roser Company is the oldest industrial refrigeration company in the Western Hemisphere. They have been in business for more than a hundred years.
- ◆ McNeil Engineering was tasked by the client to complete a 3D laser scan and using the scan data to create a 3D model of a cooling tower.
- ◆ The client is performing some upgrades and modifications to the cooling tower and need to know where existing pipes and infrastructure are to avoid any conflicts as they complete their design.
- ◆ McNeil Engineering was able to provide more accurate data in a shorter amount of time as compared to using traditional survey methods, thus saving time and money for the client.
