

## Civil Engineering Project

### Okubo Farms Subdivision **Residential Subdivision Project**

#### PROJECT DESCRIPTION:

- ◆ This new 3 Phase 20 acre subdivision is located along 90th South at approximately 2150 West in West Jordan. When completed the project will have 48 residential lots. Phase one will have seventeen lots, phase two will have seventeen lots and phase three will consist of fourteen lots. As part one a retention pond will be constructed.
- ◆ McNeil Engineering provided all the surveying and engineering design for this project as well as construction management.
- ◆ Key design elements included the HEC-RAS modeling of the South Jordan Canal. This project involved coordination with West Jordan City, UDOT, Salt Lake County and 2 canal boards.
