

Enos Wall Mansion
(Former LDS Business College)

Educational Project

PROJECT DESCRIPTION:

- ◆ McNeil Engineering was part of the design team for the redevelopment of this historic home in downtown Salt Lake City. Working with CRSA architects, McNeil Engineering's Civil Engineering Department completed the paving and horizontal control plan. This included site improvements and design of the curb and gutter, pavement and sidewalks. The Civil Department also completed the storm water drainage report, designed the storm water detention system, completed the site utility plan and the erosion control plan.
- ◆ McNeil Engineering's Survey Department completed a boundary, topographic and utility survey of the site, as well as a laser scan of the existing elevator shaft.
